Try the Tricefy™ experience at www.triceimaging.com

Easily archive and share
your ultrasound examinations
while saving time and money.

Secure

- Ultrasound studies securely archived
- Share exam results with patients immediately
- Provide instant access to images, clips and reports for referring physicians, colleagues or experts

Compliant

- Redundant storage according to HIPAA regulations and legal requirements
- Exam data stored in its original DICOM format

Mobile

- Access your studies anywhere, anytime through current web browsers on your PC, Mac, Tablet or Smartphone
- Send studies from all imaging devices, including portable scanners, from multiple locations to a centralized image archive
- Links to studies within EHR patient chart
- Send images to a smartphone directly from your imaging device

Affordable

- Requires no onsite IT support
- No cost for installation, training, integration and upgrades
- No upfront costs. Annual subscription model based on study volume
