

Tricefy™ and ViewPoint™ 6

Focus on what matters most with a simplified, centralized and unified workflow.

GE Healthcare has partnered with Trice Imaging to provide a cloud based solution called Tricefy, allowing you to seamlessly share, collaborate, route and remotely access exams from your ViewPoint 6 workstation.

Share: instantly with patients

Enhance patient experience by sharing high-quality images, videos and reports with Tricefy from ViewPoint 6. Patients can share with family and friends with the Tricefy Mobile App, leveraging integration with social apps.

Access: remotely without compromise

Duplicate your ViewPoint 6 studies in Tricefy. Image quality and cines are uncompromised enabling remote reading and viewing. Access studies from anywhere, anytime.

Collaborate: efficiently with colleagues

Tricefy cloud enables real-time collaboration with referring physicians, outside providers, scholars and industry professionals for a second opinion, research, or education.

Route: between facilities

Streamline image and data transfer while improving communication and collaboration. Utilize Tricefy to route exams between ViewPoint 6 servers, PACS, and from non-ViewPoint users into your facility.

How we protect your data

The security of your data is our highest priority. The Tricefy cloud service is designed with multiple layers of state of the art security and in accordance with HIPPA regulations and legal requirements.

EXPERIENCE TRICEFY

Get started today with a 30-day free trial. No commitment during your trial - cancel anytime.
